

# Laboratory Biological Microscope NK-05

- NK-05 series microscope has an advanced design, stable , safety and efficient. which makes the operators to use the microscope more simple.
- The successor model of our top model among the student microscopes.With identical features, the same price and the same robustness.
- This microscope can be used in variety of biological applications,such as teaching and laboratory.

TECHNICAL SPECIFICATIONS

		NK-05A	NK-05B	NK-05T
Optical system:	Achromatic optical system	•	•	•
Viewing head:	Monocular Head, Inclined at 45° , 360°Rotatable	•		
	Seidentopf Binocular Viewing Head, Inclined at 45° , 360°Rotatable		•	
	Seidentopf Trinocular Head, Inclined at 45° , 360°Rotatable			•
Eyepiece:	Wide Field Eyepiece WF10X/18mm	•	•	•
Objective:	Achromatic Objectives 4X 10X 40Xs 100Xs(oil)	•	•	•
Nosepiece:	Backward Quadruple Nosepiece	•	•	•
Condenser:	Abbe Condenser NA1.25 with Diaphragm, Filter	•	•	•
Focusing adjustmnet	Coaxial Coarse and Fine Adjustment, Moving Range 22mm	•	•	•
Stage:	Double Layer Mechanical Stage 140x130mm	•	•	•
Illuminator:	LED Illumination, Brightness Adjustment	•	•	•
	6V/20W Halogm Lamp, Brightness Adjustment
